

Unit 3
Developmental Psychology

Directions

- As a group you will create a presentation using Google Slides based on your chosen modules.
 - You will need to share your presentation with each other as well as Mr. Sichak (csichak@wcpss.net).
- The slides should be interesting, however not crowded with words.
 - The use of images is permitted, but not required.
 - The use of videos is permitted, but not required. All videos must be cleared by Mr. Sichak first.
 - Vocabulary terms must be in **bold red text**.
 - While creating your slides keep in mind your peers will be taking notes.
 - At the end of your presentation your last slide should include 3-5 review questions.
- Once you decide which module you are going to work on, as a group, your first order of business will be to create a typed group contract and also list the assigned roles/presenting part for each member of the group in the contract. Once you create it I will print it and you will each sign it.
 - I have broken each module into manageable sections to help you divide the work.
- A sample contract may be found here→
http://people.rit.edu/vwlsps/SCALEUPGeneral/group_contracts.html
- The use of your time must be paramount. You will have two days in class to prepare your presentation.
 - Anything not completed in class will be done so on your own time.
- The maximum time a group may use to present is 40 minutes.
- You will be responsible for answering questions your peers may have.
- We will begin presenting on TBA
 - Presentations are scheduled as follows:
 - Module 5 (TBA)
 - Module 6 (TBA)
 - Module 7 (TBA)
 - Module 8 (TBA)
 - Module 9 (TBA)
 - Module 10 (TBA)
- Each group member must present to the class.
