

## Making Sense of Our Senses

Psychology is happening around you all of the time. Read the scenario and fully explain your answers.

1. You are at a college basketball game, let's say the UNC vs. Duke game in the Dean Dome. Explain how each of the following terms allows you to experience your surroundings.

- **Sensory Adaptation**
  
- **Selective Attention**
  
- **Top-Down Processing**
  
- **Cocktail party effect**
  
- **Signal Detection Theory**
  
- **In-attentional Blindness**
  
- **Change Blindness**
