

Psychology
Learning Unit Test Review

Be familiar with the following terms/concepts listed below. The students who are most prepared will review any handouts, notes, and all reading assigned during this unit. The list below is NOT comprehensive – anything covered during the unit is fair game and may not necessarily be listed below.

- **Definition of Learning and Social Learning Theory**
- **Classical Conditioning** (Ivan Pavlov [dog], Unconditioned Stimulus, Unconditioned Response, Conditioned Stimulus, Conditioned Response)
- **Extensions of Classical Conditioning** (spontaneous recovery, generalization, learned taste aversion)
- **Operant Conditioning** (B.F. Skinner, Positive reinforcement, negative reinforcement, positive punishment, negative punishment, limitations of punishment)
- **Operant Conditioning Terms** (Skinner box, shaping, primary vs. conditioned (secondary) reinforcers, latent learning, behavior modification, learned helplessness)
- **Schedules of Reinforcement** (continuous vs. partial reinforcement, primary reinforcer, fixed ratio, variable ratio, fixed interval, variable interval)
- **Observational Learning** (prosocial behaviors, Albert Bandura's Bobo Doll study, modeling)
