

# Journal – Day 5

HEI often results in humans changing / manipulating the environment.... If this always a bad thing? Explain why or why not.

## Homework

Unit 1 Quiz – Thursday – 2/1

Maps 1 and 2 Quiz – Friday 2/2

Unit 1 Homework and Test – Monday – 2/5

# Site and Situation

Task: You are going to show/explain the Site & Situation of 3 or 4 cities around the world using Google Earth/Maps/Images. You can compile your cities with the site and situation information on a word, google doc, etc. Create a new page or slide with the following information for each city.

You must have 1 city per person in your group from around the world. For each city you must include:

- an image that displays site or situation for your city
- a minimum of 3 points about its site
- a minimum of 3 points about its situation,
- references of where you have obtained your information if using an outside source (url addresses etc)

Assignments should save and share your activity with Mr. Sichak on google drive at [csichak@wcpss.net](mailto:csichak@wcpss.net)

# Work on map projection handout, longitude & latitude handout

Study for Quiz on Thursday.

1. Be able to ID thematic maps and know how each displays data.
2. ID map projections from the handout. Know where the greatest amount of distortion occurs on each.
3. Label lines of Latitude and Longitude. Know major lines such as Equator, Prime Meridian, etc
4. What else can lines of latitude and longitude show
5. Answer questions based on the World Regions map. (Will have a copy on the quiz to use)
6. Continents and Oceans

# What to do after site / situation activity

1. Study for your Unit 1 Quiz.
2. Do the unit reading. Pages 1-33 and Appendix A1-9
3. Unit 1 Vocabulary
4. Unit 1 Reading Questions
5. Maps #1 and 2 for Map Quiz #1
