

AP Human Geography
Place/Location Geography

Please answer the questions below. First you should identify/define the terms and then apply to the map below. Please insert your text in a different color. This can be saved in and shared with me via Google Drive.

1. Explain how each of the following helps to identify place:
 - i. Site
 - ii. Situation
 - iii. Absolute location
 - iv. Relative location
2. In order to identify uniqueness of place, describe Point A on the map above using *three* terms below:
 - i. Site
 - ii. Situation
 - iii. Absolute location
 - iv. Relative location
3. Check out this site about LA losing coastline since the 1930's
 - i. <http://projects.propublica.org/louisiana/#>
