

Agricultural Geography: Climate and Agricultural Production

Part I: Complete the following organizer. Use the World Climate and World Agriculture maps in your textbook to complete (Pages 352-353).

CLIMATE ZONE	LOCATION OF CLIMATE ZONE	AGRICULTURAL PRACTICE	MAJOR CROPS/PRODUCTS
Humid Low-Latitude (Humid Sub-Tropical)			
Dry (Arid / Semi Arid)			
Warm Mid-Latitude (Mediterranean)			
Cold Mid-Latitude (Humid Continental)			
Polar (Subarctic)			
Undifferentiated Highlands			

Part II: Answer the following questions in complete sentences

1. What are the main differences between agricultural practices in MDCs and agricultural practices in LDCs? Why are they so different?
2. What is the relationship between climate and the type of agriculture practiced?
