

# AP Psychology-Psychology's Perspectives

## What would they say...

If you convened psychologists from the neuroscience, evolutionary, behavior genetic, psychodynamic, behavioral, cognitive, and social-cultural perspectives, how would they approach the following issues:

<b>Psychological Perspective</b>	<b>Focus of perspective</b>	<b>The nature of love</b>	<b>The way in which a person exhibits his or her intelligence</b>	<b>The reasons why a person abuses drugs</b>
<b>Neuroscience</b>				
<b>Evolutionary</b>				
<b>Behavior genetic</b>				
<b>Psychodynamic</b>				
<b>Behavioral</b>				
<b>Cognitive</b>				
<b>Social-Cultural</b>
